To accelerate establishment when building and rebuilding cool and warm season turf whether seeded, sodded or sprigged.

Formulated for high sand content rootzones, such as USGA sand/peat mixes, California type, and Prescription Athletic Turf (PAT) Systems.

GroWin is a granular rootzone amendment used to accelerate establishment of seeded, sodded or sprigged turf. It contains a variety of organic meals agglomerated into easily-spread homogenous granules.

Applying 25 lbs of GroWin per 1000 sq ft will deliver 1.25 lbs. of N.
