**HERBICIDE**

**LEBANON**

**CONFRONT® FERTILIZER WITH HERBICIDE**

**BROADLEAF WEED CONTROL**

---

**Directions for Use**

- **Apply Lebanon Proscape Homogeneous Fertilizer with Confront Herbicide** to moist or dry foliage at the **NORMAL RATE** (0.65 lb. ai/A) to control the following weeds:
  - Small-seeded morning glory
  - Large-seeded morning glory
  - Broadleaf morning glory
  - Broadleaf waterplantain
  - White clover

- **Apply Lebanon Proscape Homogeneous Fertilizer with Confront Herbicide** to moist foliage at the **HEAVY RATE** (0.75 lb. ai/A) to control the following weeds:
  - Bluegrass, Kentucky
  - Bluegrass, rye
  - Fescue, blue
  - Fescue, red
  - Ryegrass, Italian
  - Ryegrass, velvet
  - Ryegrass, wild

**Other Ingredients**

- **1.6% Urea Nitrogen**
- **Acid Equivalent:**
  - triclopyr - 0.36% (L)
  - clopyralid - 0.12% (D)

**Application**

- Make application using equipment that will ensure uniform coverage. Application should be made when weeds are in the **1st or 2nd immature leaf stage**. Application should be delayed until no sooner than 4 weeks after application to achieve optimal results. Application under drought conditions may provide less than desirable results.

**Entry Restrictions:**

Apply this product only as specified on this label. It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or reduced performance when applying this product contrary to label instructions (including conditions noted on the label, such as unfavorable weather or soil conditions, or when applied to dry foliage). Plant injury, lack of performance, or reduced performance may be severe if the temperature exceeds 90°F or faces wind gusts in excess of 15 mph. Do not treat warm season turfgrasses with Lebanon Proscape Homogeneous Fertilizer with Confront Herbicide when the mowing height is less than 1/2 inch.

**Use Restrictions:**

- Do not apply this product to turf culturally maintained to be no later than 8 weeks before a public event or no later than 4 weeks after reseeding.
- Do not contaminate water, food, or feed by storage or disposal.
- Do not apply this product to areas accessible to livestock or pets within 48 hours after application.
- Do not apply this product to areas accessible to children within 48 hours after application.
- Do not apply this product to areas where plants are grown for seed, sod, or sprig after application. Delay until no sooner than 4 weeks after application.
- Do not apply this product to areas where the product may contaminate water used for irrigation or domestic purposes.
- Do not contaminate water, food, or feed by storage or disposal.
- Do not apply this product to leached areas.
- Do not apply this product to areas where the product may contaminate water used for irrigation or domestic purposes.

**Reapplication:**

- Do not reapply this product until 4 weeks after application.
- To achieve effective weed control, make a second application. Do not reapply unless weed growth is controlled.

**Reestablishment:**

- Do not reseed until 4 weeks after application.
- To achieve effective weed control, make a second application. Do not reapply unless weed growth is controlled.

**Application Tips:**

- Apply Lebanon Proscape Homogeneous Fertilizer with Confront Herbicide to moist or dry foliage at the NORMAL RATE (0.65 lb. ai/A) to control the following weeds:
  - Small-seeded morning glory
  - Large-seeded morning glory
  - Broadleaf morning glory
  - Broadleaf waterplantain
  - White clover

- **Apply Lebanon Proscape Homogeneous Fertilizer with Confront Herbicide** to moist foliage at the HEAVY RATE (0.75 lb. ai/A) to control the following weeds:
  - Bluegrass, Kentucky
  - Bluegrass, rye
  - Fescue, blue
  - Fescue, red
  - Ryegrass, Italian
  - Ryegrass, velvet
  - Ryegrass, wild

**Storage and Disposal:**

- Store in original container in a clean, dry area away from extremes of heat and cold and out of direct sunlight.
- Nonrefillable container.

**For Environmental Protection:**

- Do not contaminate water, food, or feed by storage or disposal.
- Do not apply this product to areas accessible to livestock or pets within 48 hours after application.
- Do not apply this product to areas accessible to children within 48 hours after application.
- Do not apply this product to areas where plants are grown for seed, sod, or sprig after application. Delay until no sooner than 4 weeks after application.
- Do not apply this product to areas where the product may contaminate water used for irrigation or domestic purposes.
- Do not apply this product to leached areas.
- Do not apply this product to areas where the product may contaminate water used for irrigation or domestic purposes.
