Apply only to actively growing turf. Do not exceed 3.2 lbs. of total nitrogen per 1,000 sq. ft. annually.

In Maryland and Virginia: This fertilizer contains phosphorus and may not be used for lawn maintenance on turf in the states of Maryland or Virginia except when

- 1) Providing nutrients to specific soils and target vegetation as determined to be necessary in accordance with a soil test that was conducted by a laboratory* performed no more than 3 years before the application;
- 2) Establishing vegetation for the first time, such as after land disturbance, provided the application is conducted in accordance with the recommended application rates established by the State;
- or 3) Re-establishing or repairing a turf area.

*In Maryland, the laboratory must be identified under Section 8-803.7 of the Agriculture Article, Annotated Code of Maryland.

In New Hampshire: This fertilizer contains phosphate. In New Hampshire, phosphate fertilizers may only be used for turf maintenance in golf courses, parks, athletic fields, and sod farms.

KCS™ CONCENTRATE

Increases Plant Hardiness

DIRECTIONS FOR USE: Apply only as directed.

Compatibility: KCS™ concentrate is tank mix compatible with most soluble fertilizers, herbicides, pesticides, fungicides and absorbent gels. As with all chemicals, read all labels for compatibility verification and, if practical, test on a small area prior to extensive use with other chemicals. If in doubt, call 800-233-1067 with questions.

Storage

Avoid excessive heat and freezing. Store & transport between 40° F & 90° F (4° C & 32° C). Due to high concentration of solids, some settling of solids may occur. Agitate or shake container to achieve complete solubility.

KEEP OUT OF REACH OF CHILDREN. For Safety Data Sheets contact your local distributor or call us at 800-233-1067.

Apply KCS™ concentrate with a sufficient amount of water to ensure adequate coverage.

Shake or mix container well to assure uniformity.
