| Lely                   | 6 ll                 | 4 ll                 |
| Lesco (letter/numeric) | J/21                 | H/15                 |
| PennMulch HVO          | M                    | J                    |
| ProScape SS            | M                    | J                    |
| Spyker                 | 4½                   | 3½                   |
| Vicon                  | 26                   | 22                   |

These settings were calibrated and field tested. However, age and condition of spreader, speed of operation and evenness of terrain may require slightly different settings for desired coverage.

#### Application Rates and Frequencies in Canada:

Follow your professional landscape management plan for your local course or area. A suggested application rate is 1 to 2.8 Kg for 100 m<sup>2</sup>, applied every 4 to 8 weeks during the local growing season.

**NOTICE:** This product contains the secondary nutrient iron. Iron may stain concrete surfaces and should not be applied on dry or water dampened concrete and should be removed from these areas promptly by sweeping or blowing. Do not wash off with water.

Lebanon brand fertilizers are formulated for professional use on turf, including golf courses, sports fields, and landscapes. Specific application rates and frequencies are determined by the professional applicator based on local soils, regulations, and climate.

#### Application Rates:

To feed at the rate of 0.43 kg Nitrogen (N) Equivalent to 4.7 kg of product per 100 sq. meters.

To feed at the rate of 0.24 kg Nitrogen (N) Equivalent to 1.3kg of product per 100 sq. meters.

#### SUGGESTED SPREADER SETTINGS

### Hazard Statements

May be harmful if inhaled repeatedly over long periods.  
Keep out of reach of children.

### Precautionary Statements

Avoid Breathing dust.

Seek medical advice or attention if you feel unwell.

Dispose in accordance with all federal, state and local regulations.

Fertilizer may cause irritation of eyes, nose, throat, and skin. In case of contact with skin or eyes, flush with plenty of water; for eyes get medical attention.

Use in accordance with recommendations of a qualified individual or institution, such as, but not limited to a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn, and sweep any product that lands on the driveway, sidewalk, or street back on to your lawn.

**Apply only to actively growing turf. Do not exceed 3.2 lbs. of total nitrogen per 1,000 sq. ft. annually.**

**In Maryland, New York and Virginia:** This fertilizer contains phosphorus and may not be used for lawn maintenance on turf in the states of Maryland, New York or Virginia except when  
1) Providing nutrients to specific soils and target vegetation as determined to be necessary in accordance with a soil test that was conducted by a laboratory\* performed no more than 3 years before the application;  
2) Establishing vegetation for the first time, such as after land disturbance, provided the application is conducted in accordance with the recommended application rates established by the State; or 3) Re-establishing or repairing a turf area.

\*In Maryland, the laboratory must be identified under Section 8-803.7 of the Agriculture Article, Annotated Code of Maryland.

**In New Hampshire:** This fertilizer contains phosphate. In New Hampshire, phosphate fertilizers may only be used for turf maintenance in golf courses, parks, athletic fields, and sod farms.
