

# Emerald Isle Solutions

## PanaSeá Plus® 0•2•2 Liquefied Sea Plant

**Ornamentals and Flower Beds** - Apply 3.8 liters (1 U.S. gallon) of standard mix for every 122 meters (400 sq. ft) of foliage.

**Transplants or Other Stressed Plants** - Use standard rates.

### Application Guidelines

Shake or agitate before use. Apply in the early morning or late afternoon for best results. Use a spray adjuvant for superior coverage. Allow foliar product to dry on plant prior to irrigation.

**Mixing Guidelines:** Use a minimum of 3.8 liters of water carrier per 93 sq. meters (1 U.S. gallon per 1,000 sq. ft.). Fill mix tank with half of required spray water and turn on agitation. Measure product into tank, add remaining water and other soluble materials. Add a defoaming agent if desired, and adjust pH of tank-mix to neutral if necessary.

**Compatibility:** Emerald Isle liquids are compatible with most fertilizers and chemicals but should not be mixed directly with other chemicals. Mix in spray tanks with water and proper agitation. Conduct a jar test as needed to ensure compatibility with other products before tank mixing.

### Storage and Use Guidelines

Store in original containers at temperatures between 10°C and 35°C (50°F and 90°F). Mix with other materials only at time of application and in exact amounts required. To avoid contamination, do not return previously mixed product to its original container. Use all product within 12 months of original purchase.

### KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May cause irritation. Avoid contact with eyes, skin, and clothing. Wear chemical resistant goggles and gloves. Do not take internally. Avoid inhaling mist or vapor. In case of contact with eyes, flush eyes with water for 15 minutes.

If irritation occurs, seek medical attention.

Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other intended plants during the course of the year.

Information regarding the contents and levels of metals in this product is available on the Internet at:  
<http://www.regulatory-info-lebsea.com>

Use in accordance with recommendations of a qualified individual or institution, such as, but not limited to a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn.

### CONDITIONS OF SALE

The Manufacturer warrants only that product conforms to label description. Buyer and user agree to accept all liability associated with handling, use, and disposal of this product.

Precautionary Statements for handling:

Keep out of reach of children

Precautionary Statements for disposal - Dispose in accordance with all federal, state and local regulations.

**In Maryland, New Jersey, New York and Virginia:** This fertilizer contains phosphorus and may not be used for lawn maintenance on turf in the states of Maryland, New Jersey, New York or Virginia except when

- 1) Providing nutrients to specific soils and target vegetation as determined to be necessary in accordance with a soil test that was conducted by a laboratory\* performed no more than 3 years before the application
- 2) Establishing vegetation for the first time, such as after land disturbance, provided the application is conducted in accordance with the recommended application rates established by the State
- 3) Re-establishing or repairing a turf area.

\*In Maryland, the soil testing laboratory must be identified under Section 8-803.7 of the Agriculture Article, Annotated Code of Maryland.

**In New Hampshire:** This fertilizer contains phosphate. In New Hampshire, phosphate fertilizers may only be used for turf maintenance in golf courses, parks, athletic fields, and sod farms.

**PanaSeá Plus®** is a blend of natural sea plant extracts harvested from the North Atlantic Ocean stabilized with a very small amount of phosphoric acid. Use as a foliar spray for maintaining golf course greens and tees, grass tennis courts and athletic fields. Also ideal for high visibility lawns, parklands, roadways, and landscape and horticulture applications.

Lebanon brand fertilizers are formulated for professional use on turf, including golf courses, sports fields, and landscapes. Specific application rates and frequencies are determined by professional applicators based on local soils, regulation, and climate.

Application Rates and Frequencies: Follow your professional landscape management plan for your local course or area.

### Turf Application Guidelines

**Golf Course Greens and Tees, Grass Tennis Courts and Athletic Fields:**

Apply 59 to 88 ml. Per 93 sq. meters (2-3 ounces per 1,000 sq. ft.) every 7 to 14 days starting at the initial stages of growth and continuing throughout the season.

**Warm Season Turfgrasses:** Apply at the more frequent rate.

### Horticulture Application Rates

**Standard Mixture** - 59 ml. per 3.8 liters of water (2 ounces per gallon of water). Apply every two to four weeks during the growing season.

**Trees** - Apply 3.8 liters (1 U.S. gallon) of standard mixture per 2.5 cm. (1 inch) diameter of trunk as a drench to the drip line or apply as a foliar spray to the tree.

**Shrubs** - Apply 3.8 liters (1 U.S. gallon) of standard mixture for every 30 cm. (12 inches) of growth.

9.46 Liters  
(2.5 U.S. Gallons)
