

DIRECTIONS FOR USE:

Turf and Ornamentals: Apply with water or spray to address compaction or hydrophobic soil conditions. For optimal results dilute 1:100 in water (1 ounce per gallon of water), and apply as a spray or soil drench. Yuccah® may foam with agitation.

APPLICATION RATES			
APPLICATION	RATE	COVERAGE	FREQUENCY/ METHOD
Tees/Greens	6-oz	1,000 sq ft	Monthly
Seeding, Sodding and Lawns	6-oz	1,000 sq ft	After Installation (as needed)
Overseeding	1-Gal	1 acre	2 Weeks
Flower Beds	6-oz	1,000 sq ft	As needed
Fertigation	1 Quart	1 acre	Weekly
Problem Soils	12-oz	1,000 sq ft	As Needed
Tree Care	1 to 2 Quarts	100-Gal	Soil Inject or Drench
Hydroseeding	2-Gal	1 acre	Tank Mix
Spreader	8-oz	100-Gal	Add to Spray Mix

**YUCCA[®] IS NOT A PLANT FOOD PRODUCT.
CONTAINS NON PLANT FOOD INGREDIENTS**

ACTIVE INGREDIENTS

Ingredients	% By Weight
Yucca <i>Schidigera</i> Plant Extract.....	90%
Copolymerized Alkane Oxides (Non-Ionic Surfactant), 9.985%	
Inert Ingredients	
Copper Sulfate (preservative).....	0.015%
	F699

NATURALLY BETTER

YUCCA[®]

WETTING AGENT AND SOIL PENETRANT

Yuccah[®] is a wetting agent and spreader derived from *Yucca schidigera* plant extracts. This is a unique species of Yucca cactus that produces natural surfactants which enable them to efficiently utilize water and survive in harsh desert climates with extreme heat, drought and soil salinity. Although pure Yucca extracts are effective surfactants, Yuccah[®] is modified with an additive to enhance wetting and penetrant properties for outstanding performance.

- Alleviates hydrophobic conditions
- Naturally biodegrades in soil
- Safe, non-scorching formulation

NET CONTENTS: 1 Gallon (3.78 Liters)

NET WT: 8.58 Lbs

COMPATIBILITY: Nontoxic to plants and will not cause leaf burn or stress at standard use rates. Use whenever wetting agents or surfactants are needed to improve water penetration, spreading, or as an adjuvant to increase coverage of a pesticide or fertilizer. Compatible with most soluble fertilizers and pesticides. Yuccah[®] mixes easily in cold water and stays in solution without additional agitation.

STORAGE: Avoid excessive heat and freezing. Yuccah[®] is very stable in its concentrated state. For maximum shelf life, store in a cool dry area. Once diluted in water, Yuccah[®] will begin to degrade after 48 hours.

HEALTH AND SAFETY: Avoid contact with eyes. May be harmful if swallowed. Keep out of reach of children. If ingested, drink water and seek medical attention. Do not apply directly to lakes and ponds. **KEEP OUT OF REACH OF CHILDREN.**

This product is not for use in organic crop and food production.
